RAPID BRIDGE EXPANDS DEVELOPMENT TEAM AND ESTABLISHES DESIGN CENTER IN NORTH CAROLINA

SAN DIEGO, November 17, 2009 --- Rapid Bridge, an innovator in advanced semiconductor design and development processes, announced today that it has opened a new design center in Raleigh, North Carolina. This design center will expand the company's technology base and provide an East Coast presence to better meet the needs of customers.

"We are pleased to expand our design team and physical presence to both coasts," said Massih Tayebi, CEO of Rapid Bridge. "North Carolina has a tradition of technical excellence and we have always been impressed with the talent pool and the quality of engineering resources. I am very proud of our team here and excited about the opportunity before us."

Rapid Bridge's new design center is located at:
Rapid Bridge
19 W. Hargett Street
Raleigh, NC 27601
Phone: 919-341-1282

About Rapid Bridge

Rapid Bridge is a semiconductor technology company with a unique approach to addressing the industry's issues of cost, performance, power and time to market. Rapid Bridge's patented technology is baked into the product portfolio: LiquidIP™, LiquidASIC™ and LiquidSoC™. LiquidIP is a robust IP portfolio which includes the smallest and highest performing IPs in the industry. LiquidASIC lowers cost barriers and includes a complete collection of pre-defined ASIC platforms, interface subsystems and foundations IPs. LiquidSoC provides the industry's most cost efficient SoCs with customer-defined die size and IP resources, regular layout structures, and full programmability. Rapid Bridge enables the industry's genius. For more information on Rapid Bridge, visit us at www.rapidbridge.com.
